LEADS

Effective: March 16, 2020 after 8:30 AM

The following wanted person entry and response modifications have been developed to enhance officer safety and improve entry efficiency in response to feedback received from LEADS agencies:

A new In-State Pick-up Radius field (indicated in yellow below) has been created in the Messenger application. The field will become active when an Extradition Limitation of 4 for felony or D for misdemeanor is selected. Selecting an In-State Pick-Up Radius from the list will automatically add the text to the MIS field when the entry is submitted. The LEADS operator will no longer need to type this information in the MIS field when using the Messenger application for entries.

Warrant Information

Trainees Learn and Practice Critical Dispatching Skills

The new dispatch employees paired up and while one of them was blind folded the other gave directions on how to build the structure that instructor Deb Walker created. This really teaches them how to give concise instruction as you would over the phone, not being able to actually "see" the situation. We even turned the televisions on for added distraction. Everyone did great!

Changes In Warrant Entries

To enhance officer safety and to assist in the National Instant Background Check System (NICS) mission, all Messenger agency warrants will be entered into NCIC. Entering all warrants into NCIC will ensure that all disqualifying records are accessible by the NICS Examiners. Entering a warrant into NCIC has no effect on extradition. Agencies may still enter a warrant into NCIC and choose to extradite in state. **Therefore, reading the MIS field becomes very important for determining extradition.**

To assist you with this mission, when selecting a warrant class code, the system will automatically default to a PURI and appropriate EXL value. You will still need to place the extradition limitations in the MISC field. If it's a warrant that you will extradite interstate, you will then have to change the EXL to full extradition.

Prefill the PUR and EXL based on warrant class:

FT/FW- Default to PUR/1, EXL/4

*** Warrant Class Code**

FW = Felony Warrant

*** Pick-Up Radius**

1 = Extradite Interstate or Enter Into NCIC

*** Extradition Limitation**

4 = Felony - No extradition - In State pick up only. See MIS field for limits

*** Warrant Class Code**

FT - Felony Temporary. Only 48 Hrs

*** Pick-Up Radius**

1 = Extradite Interstate or Enter Into NCIC

*** Extradition Limitation**

4 = Felony - No extradition - In State pick up only. See MIS field for limits

BW/MT/MW- Default to PUR/1, EXL/D

*** Warrant Class Code**

BW = Bench Warrant

*** Pick-Up Radius**

1 = Extradite Interstate or Enter Into NCIC

*** Extradition Limitation**

D - Misdemeanor - No extradition - In State pick up only. See MIS field for limits

*** Warrant Class Code**

MT = Misdemeanor Temporary - Only 48 Hrs

*** Pick-Up Radius**

1 = Extradite Interstate or Enter Into NCIC

*** Extradition Limitation**

D - Misdemeanor - No extradition - In State pick up only. See MIS field for limits

*** Warrant Class Code**

MW = Misdemeanor Warrant

*** Pick-Up Radius**

1 = Extradite Interstate or Enter Into NCIC

*** Extradition Limitation**

D - Misdemeanor - No extradition - In State pick up only. See MIS field for limits

AS/AW/CD - Default to PUR/2

*** Warrant Class Code**

AS = OVI Auto OL Suspension-15 Days

*** Pick-Up Radius**

2 = Any Place In Ohio

*** Warrant Class Code**

AW = AWOL from mental institution or hospital

*** Pick-Up Radius**

2 = Any Place In Ohio

*** Warrant Class Code**

CD = Commercial Driver-Only 48 Hrs

*** Pick-Up Radius**

2 = Any Place In Ohio

*** Juveniles can be overridden by user if needed, as not all juveniles meet NCIC criteria for entry.**

Warrant Inquiries

Agencies must run a QWA to view misdemeanor warrants. QWA returns all wanted for the requested subject, regardless of the EXL values. LEADS is changing the QW ran from plate and driver license queries to QWA.

This meeting is cancelled-Details to be sent out soon

EMA and Local Fire Chiefs Visit Ohio Statehouse

On March 3rd, County EMA personnel and local fire chiefs from around the state got the opportunity to visit the Ohio Statehouse to meet with legislators and discuss current issues relating to public safety and emergency management. Emergency Management Operations Manager, Lesli Holt, and fire chiefs from the City of Franklin, Clearcreek Fire District, and Hamilton Township Fire Department were present to speak with Warren County and other Southwest Ohio Legislators.

**Thank you for representing Warren County
and advocating for the safety of
our first responders and citizens!**

COVID—19 (Coronavirus) Planning

EMA is engaged with the Warren County Health District on planning measures for the COVID-19 (coronavirus) outbreak. More information is forthcoming as a Joint Information System (JIS) is currently being established. At this time EMA encourages business, organizations, and all levels of government and public safety to begin continuity of operations and emergency operations planning for their departments. EMA will share additional planning resources on the established JIS platform (*coming soon*).

EQ for the Telecommunicator

October 14, 2020 | 0800-1700 | \$147

Hamilton Township Police Department
7780 South State Route 48, Maineville, OH 45039

Who should attend:

Telecommunicators, Telecommunication Supervisors and others who are assigned call-taker duties.

Description:

Due to their unique position, telecommunicators are inundated with constant stress, often without an effective way to release it. The accumulation of stress can lead to burn-out, apathy, increased sick-time or at its peak the on-set of PTSD. The question is how to provide a coping strategy for the tele-communicator to effectively negate the effects of stress? The answer is with Emotional Intelligence.

The practice of Emotional Intelligence through the process of mindfulness provides the tele-communicator with strategies to deal with chronic stress accumulation. Mindfulness is the practical application of self-awareness, self-management, and social awareness; in short, developing mindfulness means developing emotional intelligence.

This engaging workshop provides the tele-communicator with strategies to combat stress, reduce burn-out, re-ignite their "why" and increase their emotional intelligence competencies.

Attendees will leave this class with an actionable plan for relieving job stressors by learning:

- ⦿ The 5 Pillars of Emotional Intelligence
- ⦿ Understand the concept of Emotional Contagion
- ⦿ Identify their individual stress point
- ⦿ Understand the difference between reacting and responding
- ⦿ Identifying when tap-out moments should happen
- ⦿ Why having a pause button is important
- ⦿ Understand the difference between fixed and growth mindset
- ⦿ A personal strategy for stress reduction and increasing resiliency
